

ANKIT KUMAR

Software Developer

☎ +91-7367871361 ✉ kr.ankitt21@gmail.com 🌐 github.com/Ankittkr 🔗 linkedin.com/in/ankitkumar

Skills

Programming Languages: JavaScript, Python, C++, Java

Frontend Development: React.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3, Responsive Design, NextJs

Backend Development: Node.js, Express.js, REST APIs, Authentication, JWT, Middleware, Django

Database: MongoDB, Mongoose, SQL Basics

Tools & Platforms: Git, GitHub, Postman, VS Code, Render, Vercel

Concepts: Data Structures & Algorithms, OOP, API Integration, System Design Basics

Experience

Frontend Lead – Web Development Cell, NIT Patna

March 2026 – Present

National Institute of Technology, Patna

- Led frontend development for multiple student-driven web projects, ensuring responsive and user-friendly UI/UX design.
- Collaborated with backend teams to integrate REST APIs using JavaScript and Next.js.
- Standardized UI components and design practices, resulting in consistent and maintainable codebases.
- Actively contributed to project planning, feature design, and debugging in agile team environments.

Projects

Skill Vault – Full Stack Learning Management System

[🔗] [🌐]

React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind CSS

- Engineered a scalable **Learning Management System (LMS)** with separate **student/instructor workflows** and **Redux Toolkit** for centralized state management.
- Leveraged the **Gemini API** to build a natural language **course recommendation engine** that maps user intent to relevant course categories.
- Developed optimized **REST APIs** with **JWT authentication**, **MongoDB** schema modeling, and **Cloudinary** for media handling.
- Built a responsive interface using **Tailwind CSS** featuring dynamic **course filtering**, **enrollment tracking**, and **instructor dashboards**.

Banking Risk Analysis – Credit Risk Prediction & Loan Recommendation System

[🔗] [🌐]

Python, Scikit-Learn, Pandas, NumPy, Matplotlib, Streamlit

- Developed a **machine learning** banking analytics platform using **Logistic Regression** and **Linear Regression** for **credit risk classification** and **loan amount prediction**.
- Built a **Streamlit dashboard** with **data preprocessing**, **data visualization**, and **real-time risk analysis**.
- Applied **feature engineering** and **model evaluation** techniques on financial datasets to improve prediction accuracy.

Achievements

- **Rank 8 – Code Enigma 1.1 (Hackslash Club, NIT Patna):** Secured **Rank 8** in an intra-college competitive programming contest for exceptional problem-solving skills. (Certificate)
- **Top 50 Team – Web of Innovation Hackathon 2025:** Ranked among top 50 teams for building an innovative web solution (Certificate).
- **LeetCode:** Solved 500+ coding problems across multiple DSA topics. (Profile)

Certification

- **Coursera – Supervised Machine Learning: Regression and Classification (DeepLearning.AI):** Certificate.

Education

B.Tech. in Computer Science Engineering

Expected Graduation: 2028

National Institute of Technology, Patna

CGPA: 8.43 / 10
